\$50 Million Bond

Double-Entry
System

Cachet's online ACH processing system accepts standard NACHA formatted files. Each individual file can include multiple settlement dates and batches for various clients:

- Tax Payments
- Garnishments
- Direct Deposit
- Fee Collection
- Benefit Payments
- Employee Expense Reimbursements

ACH Processing Features & Benefits

Double Entry System – Aids in the reconciliation of processed transactions. Also eliminates issues caused by the use of a single entry system commonly used in the banking industry.

Bond – Our fifty million dollar (\$50,000,000.00) bond can assist you in marketing your business. The bond provides added protection for client funds. ACH transactions are not insured transactions by banks through FDIC.

Pricing – Extremely competitive fees.

Web-Based Product – Comprehensive online system accessible 24/7. Simple point and click system not available at many banks. Upload ACH files with ease and access all your ACH history online, as far back as the beginning of the prior year. Delete files, suspend batches, or obtain all return notifications directly online.
